ESPRIT

The Natural Collection Conditioning Body Wash

Cleans and Softens Skin and Hair

The Natural Collection is a series of cleaning chemicals that have been developed with specific cleaning performance and environmental goals in mind. This range of cleaners which covers most cleaning applications, has been built from naturally occurring, regenerative ingredients that have been developed from renewable natural resources. These products are readily biodegradable and utilise naturally occurring acids, essential oils, surfactants, and solvents including the popular citrus solvent, d-Limonene. All products in the natural collection have been blended on a base of fresh pure rain water and are fragranced, to produce pleasant fresh notes, with essential oils.

ESPRIT is a general purpose natural liquid all over conditioning body wash. This delicate liquid soap formulation, which has been enhanced with the natural ingredients of lavender oil and skin softeners and conditioners, is ideal for use on the skin and hair in the bathroom. It will remove dirt and grime from your body whilst leaving it soft and clean. ESPRIT is an economical and hygienic alternative to cake soap. ESPRIT is packed in bulk to further save you money. Dispensers, to control use are also available from Centurion Chemicals.

DIRECTIONS:

Fill hand soap dispenser with ESPRIT and secure lid. Press button once or twice for desired amount. Agitate hands to produce a foam and lather the body and hair. Rinse off with fresh water and then wipe with a towel.

* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

A TIP FROM THE CHEMIST

When washing your body, hands or hair, wash them thoroughly and get the benefits. A study has shown that good washing techniques produces virtually the same level of bacteria control as does washing with a disinfectant.
