

PRODUCT DATA SHEET

HAND SOAP

The Natural Collection Liquid Hand Soap

Cleans and Softens Hands

The Natural Collection is a series of cleaning chemicals that have been developed with specific cleaning performance and environmental goals in mind. This range of cleaners which covers most cleaning applications, has been built from naturally occurring, regenerative ingredients that have been developed from renewable natural resources. These products are readily biodegradable and utilise naturally occurring acids, essential oils, surfactants, and solvents including the popular citrus solvent, d-Limonene. All products in the natural collection have been blended on a base of fresh pure rain water and are fragranced, to produce pleasant fresh notes, with essential oils.

HAND SOAP is a general purpose natural liquid hand soap formulation which has been enhanced with the natural ingredients of orange, honey and vanilla. It is ideal for use in the kitchen or bathroom. It will remove dirt and grime from your hands whilst leaving them soft and clean. HAND SOAP is an economical and hygienic alternative to cake soap. HAND SOAP is packed in bulk to further save you money. Dispensers, to control use are also available from Centurion Chemicals.

DIRECTIONS:

Fill hand soap dispenser with HAND SOAP and secure lid. Press button once or twice for desired amount. Agitate hands to produce a foam. Rinse hands with fresh water and then wipe with a towel.
