

PRODUCT DATA SHEET

LAVENDER SOAP

The Natural Collection **Liquid Hand Soap**

Cleans and Softens Hands

The Natural Collection is a series of cleaning chemicals that have been developed with specific cleaning performance and environmental goals in mind. This range of cleaners which covers most cleaning applications, has been built from naturally occurring, regenerative ingredients that have been developed from renewable natural resources. These products are readily biodegradable and utilise naturally occurring acids, essentials oils, surfactants, and solvents including the popular citrus solvent, d-Limonene. All products in the natural collection have been blended on a base of fresh pure rain water and are fragranced, to produce pleasant fresh notes, with essential oils.

LAVENDER SOAP is a general purpose natural liquid hand soap formulation which has been enhanced with the natural ingredients of lavender oil, and skin softeners. It is ideal for use in the kitchen or bathroom. It will remove dirt and grime from your hands whilst leaving them soft and clean. LAVENDER SOAP is an economical and hygienic alternative to cake soap. LAVENDER SOAP is packed in bulk to further save you money. Dispensers, to control use are also available from Centurion Chemicals.

DIRECTIONS:

Fill hand soap dispenser with LAVENDER SOAP and secure lid. Press button once or twice for desired amount. Agitate hands to produce a foam. Rinse hands with fresh water and then wipe with a towel.

* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

A TIP FROM THE CHEMIST

When washing your hands, wash them thoroughly and get the benefits. A study has shown that good washing techniques produces virtually the same level of bacteria control as does washing with a disinfectant.
