

PRODUCT DATA SHEET

PHENOLENE

Degreaser and Sanitiser

Disinfects, Cleans and Degreases

AREAS OF USE

Phenolene is an industrial strength sanitiser and degreaser suitable for sanitizing and cleaning in most industrial applications. Can be used on floors, walls, bathrooms, garbage bins, garbage trucks, animal pens and shearing sheds. It is particularly successful where you require a heavy duty cleaning agent as well as a disinfectant. PHENOLENE is great at attacking dirt and grease, whilst it sanitises.

FEATURES:

- Built-in degreasers
- Disinfectant

BENEFITS:

- Cuts through tough grease and grime
- Kills bacteria

DIRECTIONS:

Floors and General Cleaning:

Dilute PHENOLENE 1 part with 100 parts warm water in mop bucket, for general cleaning. Increase to 1 part PHENOLENE with 80 parts warm water for heavier soiling. Mop floors and allow to act on surface for a few minutes. Rinse off with potable water; hot if possible. Where heavy sanitizing or degreasing is required increase rate. Scrub if necessary before rinsing.

Spray and Wipe:

Use neat or dilute up to 1 part PHENOLENE with 15 parts water. With an atomiser spray bottle spray PHENOLENE onto the surface to be cleaned and wipe off.

ACTIVE INGREDIENTS:

- 30g/L Cresylic Acid (phenolic compounds)

QUANTITY AVAILABLE and PRODUCT CODE:

- | | | | |
|------------|---------|-------------|----------|
| • 5 Litre | 4011002 | • 15 Litre | 40110015 |
| • 25 Litre | 4011001 | • 200 Litre | 40110025 |

CHEMICAL HAZARD STATUS:

- Acid – Product has a pH of less than 5.5, it will cause irritation and burning.

PRODUCT USAGE ADVICE

PRODUCT: PHENOLENE - Degreaser and Sanitiser

Product Usage and Application Advice

This section provides a general guide that will be highly useful to helping determine whether this product is suitable for your cleaning requirements. In some cases these tables may not be specific enough, in this case please contact a sales representative from B & J Chemicals or a distributor of the Desert Springs Australian range.

Cleaning Areas Suitability Table

	IDEAL	GREAT	OKAY	NOT SUITABLE
Bathrooms	√			
Carpet		√		
Floors	√			
Furniture	√			
Laundrying		√		
Kitchen	√			
Vehicles		√		
Windows/ Mirrors				√

Soiling Suitability Table

	IDEAL	GREAT	OKAY	NOT SUITABLE
Blood, urine, vomit	√			
Dirt & Grime	√			
Disinfection	√			
Dye, colours		√		
Mould & Mildew		√		
Food & Drinks	√			
Oil, Grease, Fat, & Ink	√			
Rust, Iron, Scale			√	

* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

A TIP FROM THE CHEMIST

The disinfection process when carried out in dirty situations can often fail because the dirt hasn't been properly cleaned away. This dirt shields bacteria from the disinfectant, thus allowing it to survive. If high level soiling is one of your cleaning issues, use Phenolene and allow it to remove the problem soiling before sanitising.
