## BLACK MOULD REMOVER

### Black Mould Killer

#### Rids & Protects Paths, Driveways and Other Surfaces of Black Mould

BLACK MOULD REMOVER is a purpose built formulation for the removal of black mould. It will attack the mould, killing it quickly and enabling easy removal from footpaths, driveways, verandahs or anywhere else black mould grows. Once you have removed the mould the BLACK MOULD REMOVER will also provide a long lasting protection against the mould returning, meaning a good mould free surface and minimal work to keep it like that.

#### FEATURES:

- Black mould killing solution
- Black mould anti-regrowth feature

#### BENEFITS:

- Kills black mould on most surfaces
- Provides protection against the regrowth of black mould

#### DIRECTIONS

BLACK MOULD REMOVER is a concentrated product and a 5 Litre container can be diluted to make 50 litres of ready to use solution.

Application: Add 500ml of BLACK MOULD REMOVER to a 5 litre bottle and top it up with drinkable water. Simply add the BLACK MOULD REMOVER dilution to a spray bottle, sprayer or any sort of applicator. Apply BLACK MOULD REMOVER dilution to the black mould affected area. The mould will almost immediately begin to die and will turn a rusty brown colour whilst this is occurring. Allow between 30 minutes and 1 hour for BLACK MOULD REMOVER to work, then hose away the dead black mould.

#### ACTIVE INGREDIENTS:

- 175g/L Benzalkonium chloride

#### QUANTITY AVAILABLE and PRODUCT CODE:

- |            |          |             |          |
|------------|----------|-------------|----------|
| • 5 Litre  | 5851077  | • 15 Litre  | 5851076  |
| • 25 Litre | 58510765 | • 200 Litre | 58510775 |

#### CHEMICAL HAZARD STATUS:

- Mildly Acidic – Product is above pH 5.0. It may cause some irritation.

# PRODUCT USAGE ADVICE

## PRODUCT: BLACK MOULD REMOVER - Black Mould Killer

### Product Usage and Application Advice

This section provides a general guide that will be highly useful to helping determine whether this product is suitable for your cleaning requirements. In some cases these tables may not be specific enough, in this case please contact a sales representative from B & J Chemicals or a distributor of the Centurion Chemicals range.

### Cleaning Areas Suitability Table

	IDEAL	GREAT	OKAY	NOT SUITABLE
Bathrooms	√			
Carpet			√	
Floors	√			
Furniture			√	
Laundry			√	
Kitchen	√			
Vehicles			√	
Windows/ Mirrors			√	

### Soiling Suitability Table

	IDEAL	GREAT	OKAY	NOT SUITABLE
Blood, urine, vomit			√	
Dirt & Grime			√	
Disinfection	√			
Dye, colours			√	
Mould & Mildew	√			
Food & Drinks			√	
Oil, Grease, Fat, & Ink			√	
Rust, Iron, Scale				√

\* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

#### A TIP FROM THE CHEMIST

Patience is a virtue when using Remove & Protect. It will work and work very well but it needs at least an hour to work, perhaps longer. Once it has killed the black mould it will become obvious and then the mould will be ready to hose off.
