## CARPET EXTRACTION LIQUID

### Concentrated Carpet & Upholstery Shampoo

#### Rids Carpet & Upholstery of Grease Grime and Oil

CARPET EXTRACTION LIQUID carpet cleaner detergent is a low foam pH controlled carpet extraction machine fluid with added solvents to deliver excellent results whilst cleaning. The pH of CARPET EXTRACTION LIQUID is set at 9 so as to effectively clean even heavily soiled carpet whilst not causing matting and brow-out which often occurs with higher pH carpet detergents. CARPET EXTRACTION LIQUID is low foaming and requires no addition anti-foam except when incorrect spot cleaners have been used to spot clean the carpet as they will cause excessive foaming during cleaning. CARPET EXTRACTION LIQUID functions as both an extraction fluid and a pre-spot spray. It can also be successfully used as a pre-spray on carpet, in fact, we recommend its use in this manner. Pre-spraying your carpet gives the detergent a much longer time to act on dirt before extraction, and when extracting with fresh water the carpet is left free of residual detergent and thus reduces re-soiling.

#### FEATURES:

- Active cleansers , low foam detergetns and solvents
- pH controlled

#### BENEFITS:

- Low foaming great clean
- Provides an agressive clean whilst protecting the fibre

#### DIRECTIONS:

**Pre-spray** This is the recommended method for using CARPET EXTRACTION LIQUID. Dilute CARPET EXTRACTION LIQUID 1 part with 60 parts warm to hot water and spray around carpet area to be cleaned. Pay particular attention to areas where soiling is heavy. Allow some time but do not allow CARPET EXTRACTION LIQUID to dry and then extract with warm to hot fresh water.

**Spot Spraying** Dilute CARPET EXTRACTION LIQUID 1 part with 10 parts water. Spray onto stained areas or where soiling is very heavy.

**Extraction Machines** Dilute CARPET EXTRACTION LIQUID 1 part with 60 parts warm to hot water. Add to extraction machine tank and proceed to clean carpet

#### ACTIVE INGREDIENTS:

- 65g/L 2-butoxyethanol

#### QUANTITY AVAILABLE and PRODUCT CODE:

- |            |         |             |          |
|------------|---------|-------------|----------|
| • 5 Litre  | 5851071 | • 25 Litre  | 58510705 |
| • 15 Litre | 5851070 | • 200 Litre | 58510715 |

#### CHEMICAL HAZARD STATUS:

- Mildly Alkaline – Product is pH below pH 11.0. It may cause some irritation.
