

PRODUCT DATA SHEET

RED HAWK

Concentrated Carpet Extraction Fluid

Deeply Penetrates to Remove Dirt from Carpet & Upholstery

RED HAWK carpet cleaner detergent is a low foam pH controlled carpet extraction machine fluid with added solvents to deliver excellent results whilst cleaning. The pH of RED HAWK is set at 9 so as to effectively clean even heavily soiled carpet whilst not causing matting and brow-out which often occurs with higher pH carpet detergents. RED HAWK is low foaming and requires no addition anti-foam except when incorrect spot cleaners have been used to spot clean the carpet as they will cause excessive foaming during cleaning. RED HAWK functions as both an extraction fluid and a pre-spot spray. It can also be successfully used as a pre-spray on carpet, in fact, we recommend its use in this manner. Pre-spraying your carpet gives the detergent a much longer time to act on dirt before extraction, and when extracting with fresh water the carpet is left free of residual detergent and thus reduces re-soiling.

FEATURES:

- Hard working cleansers and detergents
- pH controlled

BENEFITS:

- A very good clean for carpet, upholstery, and fabric
- Protection from heavy alkali, non-matting.

DIRECTIONS:

Pre-spray

This is the recommended method for using RED HAWK. Dilute RED HAWK 1 part with 60 parts warm to hot water and spray around carpet area to be cleaned. Pay particular attention to areas where soiling is heavy. Allow some time but do not allow RED HAWK to dry and then extract with warm to hot fresh water.

Spot Spraying

Dilute RED HAWK 1 part with 10 parts water. Spray onto stained areas or where soiling is very heavy.

Extraction Machines

Dilute RED HAWK 1 part with 60 parts warm to hot water. Add to extraction machine tank and proceed to clean carpet.

ACTIVE INGREDIENTS:

- No Scheduled Ingredients.

QUANTITY AVAILABLE and PRODUCT CODE:

- 5 Litre 4051071
- 25 Litre 4051070

CHEMICAL HAZARD STATUS:

- Mildly Alkaline – Product is pH 9.0. It may cause some irritation.

PRODUCT USAGE ADVICE

PRODUCT: RED HAWK - Concentrated Carpet Extraction Fluid

Product Usage and Application Advice

This section provides a general guide that will be highly useful to helping determine whether this product is suitable for your cleaning requirements. In some cases these tables may not be specific enough, in this case please contact a sales representative from B & J Chemicals or a distributor of the Desert Springs Australian range.

Cleaning Areas Suitability Table

	IDEAL	GREAT	OKAY	NOT SUITABLE
Bathrooms			√	
Carpet	√			
Floors	√			
Furniture	√			
Laundry				√
Kitchen				√
Vehicles	√			
Windows/ Mirrors				√

Soiling Suitability Table

	IDEAL	GREAT	OKAY	NOT SUITABLE
Blood, urine, vomit	√			
Dirt & Grime	√			
Disinfection				√
Dye, colours		√		
Mould & Mildew	√			
Food & Drinks	√			
Oil, Grease, Fat, & Ink	√			
Rust, Iron, Scale			√	

* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

A TIP FROM THE CHEMIST

Give Red Hawk a chance to shine, by giving it plenty of dwell time. When you apply Red Hawk pre-spray it onto the surface and allow at least five minutes for it to work away at the soiling. Extract it afterwards with warm clean water for long lasting and effective clean.
