

PRODUCT DATA SHEET

REJUVENATE

Vinyl Floor Rejuvenator

Rejuvenates and Cleans your Vinyl Floor Seal

Brighten up your floors between coats of seal. Using REJUVENATE will enable you to apply a thin coating of vinyl floor seal to your floors whilst also giving them a light wash. REJUVENATE is easily applied with a mop and when dry can be buffed for a fantastic shine. REJUVENATE possesses great gloss and durability and is suitable for use with standard hi-speed (180-1500rpm) buffing systems.

FEATURES:

- Metal linked co-polymer floor seal rejuvenator and wash solution
- Standard and high speed buffable

BENEFITS:

- Quality gloss seal rejuvenation and clean for vinyl floors
- Easily buffable with most equipment

DIRECTIONS:

Application

REJUVENATE is applied to floors when they have become dull. Simply mop the solution and apply as you would normally mop wash the floor. REJUVENATE will lift light soiling and leave a shining rejuvenated vinyl floor behind.

Dilution Rate

Normal Use: Add 100mls REJUVENATE per 1 litre of drinkable water into a mop bucket.
Regular Maintenance: For a regular maintenance programme you can achieve a high gloss finish by regular application of thin coats. To do this add 50mls -75mls REJUVENATE per 1 litre of drinkable water in a mop and apply at least once per week.

ACTIVE INGREDIENTS:

- No Scheduled Ingredients.

QUANTITY AVAILABLE and PRODUCT CODE:

- | | | | |
|------------|---------|-------------|----------|
| • 5 Litre | 4051126 | • 15 Litre | 40511255 |
| • 25 Litre | 4051125 | • 200 Litre | 40511265 |

* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

A TIP FROM THE CHEMIST

When sealing vinyl floors with ensure you get a good strong protection from your sealer make sure you only seal the floor when the temperature is above 15 deg.C and the humidity is low.
