STRIPPER

Vinyl Floor Polish Stripper

Strips Seal From Vinyl Floors

STRIPPER is a heavy duty, non-ammoniated alkaline floor stripper suitable for stripping all types of floor seal. The aggressive stripping formulation of STRIPPER enables it to remove floor seals and base coats with ease. Using STRIPPER in your floor maintenance programme will save you time by removing old floor seals, dirt and grime leaving the floor clean and ready for sealing. STRIPPER is suitable for both manual and machine floor stripping.

FEATURES:

- Highly active stripping solution
- Non ammoniated

BENEFITS:

- Outstanding strip for top and base seals
- Pleasant to work with

DIRECTIONS:

Mop or Machine Application

Dilute STRIPPER into tank or mop bucket at a rate of 1 part STRIPPER to 10 parts hot water. Strip floor with machine and rinse with fresh water for best results. If using a mop to apply STRIPPER, mop floor and scrub with a mechanical buffer. Rinse mop several times ensuring all old seal is removed. Do not allow floor to dry during stripping operation.

Base Coat Stripping

To strip base coats with STRIPPER simply repeat the above procedure after stripping the top seals. On some floors once over may be enough to strip both base seals and top seals depending on the quality of the sealer application and the seal itself.

ACTIVE INGREDIENTS:

- 2-Butoxyethanol 130g/L.
- Sodium hydroxide 20g/L.

QUANTITY AVAILABLE and PRODUCT CODE:

- | | | | |
|------------|---------|------------|----------|
| • 5 Litre | 4051042 | • 15 Litre | 40510415 |
| • 25 Litre | 4051041 | | |

CHEMICAL HAZARD STATUS:

- Alkaline – Product is above pH 9.5. It may cause irritation or burning.

* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

A TIP FROM THE CHEMIST

When stripping and sealing vinyl floors the quality of result is governed by the quality of job you do when stripping with Stripper and sealing with Bse Seal and Top Seal. When stripping ensure all residual seal has been removed and rinse the floor thoroughly before sealing.
