

# PRODUCT DATA SHEET

## CARPET CLEANER

*The Natural Collection* Carpet Extraction Fluid

### Leaves Carpet and Upholstery Clean of Grime

The Natural Collection is a series of cleaning chemicals that have been developed with specific cleaning performance and environmental goals in mind. This range of cleaners which covers most cleaning applications, has been built from naturally occurring, regenerative ingredients that have been developed from renewable natural resources. These products are readily biodegradable and utilise naturally occurring acids, essential oils, surfactants and solvents including the popular citrus solvent, d-Limonene. All products in the natural collection have been blended on a base of fresh pure rain water and are fragranced, to produce pleasant fresh notes, with essential oils.

CARPET CLEANER combines a range of naturally occurring ingredients to produce a hard working, high performance concentrated carpet extraction fluid. CARPET CLEANER detergent is a low foam pH controlled carpet extraction machine fluid which will deliver excellent results whilst cleaning. The pH of CARPET CLEANER is set at 8.5 so as to effectively clean even heavily soiled carpet whilst not causing matting and brown-out which often occurs with higher pH carpet detergents. CARPET CLEANER is low foaming and requires no additional anti-foam except when incorrect spot cleaners have been used to spot clean the carpet as they will cause excessive foaming during cleaning. CARPET CLEANER functions as both an extraction fluid and a pre-spot spray. It can also be successfully used as a pre-spray on carpet, in fact we recommend its use in this manner. Pre-spraying your carpet gives the detergent a much longer time to act on dirt before extraction, and when extracting with fresh water the carpet is left free of residual detergent and thus reduces re-soiling.

#### DIRECTIONS:

**Pre-spray:** This is the recommended method for using CARPET CLEANER. Dilute CARPET CLEANER 1 part with 60 parts warm to hot water and spray around carpet area to be cleaned. Pay particular attention to areas where soiling is heavy. Allow some time but do not allow CARPET CLEANER to dry and then extract with warm to hot fresh water.

**Spot Spraying:** Dilute CARPET CLEANER 1 part with 10 parts water. Spray onto stained areas or where soiling is very heavy.

**Extraction Machines:** Dilute CARPET CLEANER 1 part with 60 parts warm to hot water. Add to extraction machine tank and proceed to clean carpet.

#### ACTIVE INGREDIENTS:

- d-Limonene 50g/L.

#### QUANTITY AVAILABLE and PRODUCT CODE:

- 1 Litre 5831077
- 5 Litre 5831076
- 15 Litre 5831075

#### CHEMICAL HAZARD STATUS:

- Neutral – Product is neutral or near neutral and presents a minimal risk.

# PRODUCT USAGE ADVICE

## PRODUCT: TNC CARPET CLEANER - Carpet Extraction Fluid

### Product Usage and Application Advice

This section provides a general guide that will be highly useful to helping determine whether this product is suitable for your cleaning requirements. In some cases these tables may not be specific enough, in this case please contact a sales representative from B & J Chemicals or a distributor of the Desert Springs Australian range.

### Cleaning Areas Suitability Table

	IDEAL	GREAT	OKAY	NOT SUITABLE
Bathrooms			√	
Carpet	√			
Floors		√		
Furniture	√			
Laundry		√		
Kitchen			√	
Vehicles	√			
Windows/ Mirrors			√	

### Soiling Suitability Table

	IDEAL	GREAT	OKAY	NOT SUITABLE
Blood, Urine, Vomit	√			
Dirt & Grime	√			
Disinfection				√
Dye, colours		√		
Mould & Mildew		√		
Food & Drinks	√			
Oil, Grease, Fat, & Ink	√			
Rust, Iron, Scale			√	

\* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

#### A TIP FROM THE CHEMIST

When applying Carpet Cleaner you will always get better results if you apply the diluted Carpet Cleaner solution onto the carpet or upholstery with a sprayer, before using the carpet extraction machine. This gives you greater dwell time. When you extract with the machine use fresh water so it will deliver a great residue free clean.
