CARPET SPOTTER

The Natural Collection **General Stain Remover**

Removes Most Stains From Most Types of Carpet

The Natural Collection is a series of cleaning chemicals that have been developed with specific cleaning performance and environmental goals in mind. This range of cleaners which covers most cleaning applications, has been built from naturally occurring, regenerative ingredients that have been developed from renewable natural resources. These products are readily biodegradable and utilise naturally occurring acids, essential oils, surfactants and solvents including the popular citrus solvent, d-Limonene. All products in the natural collection have been blended on a base of fresh pure rain water and are fragranced, to produce pleasant fresh notes, with essential oils.

CARPET SPOTTER is an all-purpose stain remover which shifts just about all stains including grease and grime from all carpet and upholstery fibres. CARPET SPOTTER will remove stubborn stains that normal extraction cleaning will not remove.

DIRECTIONS

Dilute CARPET SPOTTER 1 part with 10 parts water. For heavy stains dilution ratio may be reduced. Add solution to an atomizer and spray onto stained area. Leave a few minutes, but do allow to dry, extract with fresh water either mechanically or by wetting down and absorbing with a towel, dab dry do not rub. CARPET SPOTTER may be pre-sprayed and extracted during usual carpet cleaning process, just do not allow to dry.

A TIP FROM THE CHEMIST

CARPET SPOTTER is highly effective and will remove just about any stain from any type of fabric. There will be occasions when the stain simply will not move. If this is the case specialised stain removers will be required. Talk to your Centurion Chemicals supplier about purchasing and correctly using specialised stain removers.
