## HYLITE

### Caustic Hook Cleaner

#### Removes Fat, Blood and Grime from Hooks and Rollers

HYLITE is an alkaline cleaning powder suitable for aggressive degreasing and de-fatting of metals and concrete. HYLITE is a heavy duty cleaner that contains caustic which makes it an excellent degreaser. HYLITE is also ideal for use in hook cleaning baths in the food industry. HYLITE's aggressive formulation enables it to penetrate into the animal fats, hair and blood that build up on hooks and rollers in abattoirs. When using HYLITE as a part of the hook cleaning bath system it is added to the first stage of the bath process. The second stage in the process utilises BANISH hook acid rust remover. The hooks and rollers should be protected in the final bath with PROTECT hook oil.

#### FEATURES:

- Alkaline cleansing formula

#### BENEFITS:

- Cuts blood, fat, grime and removes it

#### DIRECTIONS:

##### Hook Bath:

Dilute 450g HYLITE per 5 Litres water and heat to 80-90degC. Soak hooks for 2-4 minutes. Rinse with potable water after use.

##### Floors and General Cleaning:

Use 1 part HYLITE to 80 parts water and scrub area to be cleaned with a scourer or broom. Alternatively, sprinkle powder on wet floor and scrub. Allow time to act before rinsing. Rinse with potable water after use.

#### ACTIVE INGREDIENTS:

- 400 g/L Sodium Hydroxide.

#### QUANTITY AVAILABLE and PRODUCT CODE:

- 5 kg 4151021
- 25 kg 4151020

#### CHEMICAL HAZARD STATUS:

- Alkaline – Product is above pH 9.5. It may cause irritation or burning.

# PRODUCT USAGE ADVICE

## PRODUCT: HYLITE - Caustic Hook Cleaner

### Product Usage and Application Advice

This section provides a general guide that will be highly useful to helping determine whether this product is suitable for your cleaning requirements. In some cases these tables may not be specific enough, in this case please contact a sales representative from B & J Chemicals or a distributor of the Desert Springs Australian range.

### Cleaning Areas Suitability Table

	IDEAL	GREAT	OKAY	NOT SUITABLE
Bathrooms			√	
Hook & Roller Bath	√			
Floors	√			
Furniture			√	
Laundry				√
Kitchen		√		
Vehicles				√
Windows/ Mirrors				√

### Soiling Suitability Table

	IDEAL	GREAT	OKAY	NOT SUITABLE
Blood, urine, vomit	√			
Dirt & Grime	√			
Disinfection			√	
Dye, colours	√			
Mould & Mildew	√			
Food & Drinks	√			
Oil, Grease, Fat, & Ink	√			
Rust, Iron, Scale			√	

\* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

#### A TIP FROM THE CHEMIST

For best results, always use Hylite as the first bath of the cleaning process. Heating it is not essential but will dramatically improve its performance. Do not leave cleaned hooks exposed to air for too long before protecting with oil.
