

PRODUCT DATA SHEET

PROTECT

Vegetable Hook Oil

Provides a Protective Coating for Hooks and Rollers

PROTECT hook and roller lubricant and protector is a water soluble vegetable oil based oil that protects your metal hooks and rollers from rust caused by constant chemical cleaning. PROTECT when applied to your hooks and rollers provides good lubricating properties for hooks and rollers. It can also be used on rails to reduce friction and free up movement along the rails. Also when applied to hooks after the cleaning process they will be protected and resistant to rusting. Regular use after each wash gives a long lasting protection. When using PROTECT as a part of the hook cleaning bath system it is added to the last stage of the bath process. The first stage in the process utilises HYTILE hook caustic cleaner hook acid rust remover. The hooks and rollers should then be treated in the second stage with BANISH hook acid.

FEATURES:

- Vegetable oil coating formulation

BENEFITS:

- Coats and protects against rust and corrosion

DIRECTIONS:

Hook Bath:

Dilute PROTECT 1 part with 10 parts water. Dip hooks and rollers into bath for a few minutes. For greater protection increase dilution rate. Rinse with potable water after use.

Lubricating Rails and metals Surfaces:

Before treating a metallic surface ensure that the surface has been cleaned thoroughly. Using neat wipe on, or using a paint brush apply PROTECT evenly to the surface.

ACTIVE INGREDIENTS:

- No scheduled ingredients.

QUANTITY AVAILABLE and PRODUCT CODE:

- | | | | |
|-------------|----------|--------------|---------|
| • 5 Litres | 5801002 | • 15 Litres | 5801001 |
| • 25 Litres | 58010015 | • 200 Litres | 5801003 |

CHEMICAL HAZARD STATUS:

- Neutral – Product is neutral or near neutral pH and presents minimal risk.

PRODUCT USAGE ADVICE

PRODUCT: PROTECT - Vegetable Hook Oil

Product Usage and Application Advice

This section provides a general guide that will be highly useful to helping determine whether this product is suitable for your cleaning requirements. In some cases these tables may not be specific enough, in this case please contact a sales representative from B & J Chemicals or a distributor of the Desert Springs Australian range.

Cleaning Areas Suitability Table

	IDEAL	GREAT	OKAY	NOT SUITABLE
Bathrooms				√
Hook & Roller Bath	√			
Floors				√
Furniture				√
Laundry				√
Kitchen				√
Vehicles				√
Windows/ Mirrors				√

Soiling Suitability Table

	IDEAL	GREAT	OKAY	NOT SUITABLE
Rust & Corrosion	√			
Dirt & Grime				√
Disinfection				√
Dye, colours				√
Mould & Mildew				√
Food & Drinks				√
Oil, Grease, Fat, & Ink				√
Rust, Iron, Scale	√			

* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

A TIP FROM THE CHEMIST

For best results, always use Protect as the third bath of the cleaning process. Heating it is not essential but will dramatically improve its performance. Do not attempt to apply Protect before properly cleaning and de-rusting.
