RAIL GREASE

Vegetable Grease

Lubricates Hooks and Rollers

RAIL GREASE is a vegetable oil based lubricant grease suitable for the lubrication of hooks, rollers, and rails in abattoirs. Having being formulated as a grease RAIL GREASE is effective at hanging onto the surfaces to which it has been applied. It enables you to apply generous amounts of grease, and having it stick, to aid in lubrication where a lot of lubrication is required. Also, RAIL GREASE, when applied, will stick to the surface and not drip onto the carcass.

FEATURES:

- Thick grease consistency
- Vegetable oil based

BENEFITS:

- Can be applied on all surfaces including verticle
- Is safe for the food industry

DIRECTIONS

Apply the desired amount of RAIL GREASE to the surface to be lubricated using a grease gun, spatula, brush or rag. Distribute evenly. Increase amount in areas where high levels of friction occur.

ACTIVE INGREDIENTS:

- No Scheduled Ingredients

QUANTITY AVAILABLE and PRODUCT CODE:

- 5 Litre 4151034
- 20 Litre 4151033

CHEMICAL HAZARD STATUS:

- Neutral – Product is neutral or near neutral and presents a minimal risk.

* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

A TIP FROM THE CHEMIST

Rail Grease not only lubricates but provides a protective coating against rusting.
