

# PRODUCT DATA SHEET

## SEPTIC & SEWAGE

### Living Solutions Microbial Sewage Treatment

**Digests Organic Waste, Reduces Odours, and Improves Flows**

LIVING SOLUTION - SEPTIC & SEWAGE is a microbial solution which works hard to free sewage systems and septic tanks. This living and active bacterial approach, provides a great non-toxic and biodegradable solution to sewage drainage and septic tank odours and blockages. Using LIVING SOLUTIONS - SEPTIC & SEWAGE makes sewage in sumps, holding tanks, drains and dams free-flowing and fluid. The other great advantage of using this product is that it dramatically reduces odours.

#### FEATURES:

- Living microbial formulation

#### BENEFITS:

- Powerful sewage breakdown and liquification.

#### DIRECTIONS:

When using LIVING SOLUTION - SEWAGE & SEPTIC it is best to add the solution to drains and septic tanks in as still conditions as possible. This will enable a biomass to build without dilution. Adding directly to tank or pipe is preferred. It can also be added and flushed through the toilet or sewage pipes when necessary. It is important to control the pH of the environment when adding LIVING SOLUTION SEWAGE & SEPTIC. The ideal level is between 5.0 and 9.8. You should also avoid adding disinfectants or chlorines.

**Sewage:** Add 200ml to sewage drain for small pipes. Larger pipes will require higher levels and heavy blockages or odours will also require increased amounts.

**Septic Tanks:** Initial Startup - 500ml per 1000L of tank volume. Maintenance - 50ml-150ml per 1000L of volume per week.

#### ACTIVE INGREDIENTS:

- There are no scheduled ingredients

#### QUANTITY AVAILABLE and PRODUCT CODE:

- 5 Litre            4032015
- 15 Litre          4032010

#### CHEMICAL HAZARD STATUS:

- Neutral – Product is neutral or near neutral and presents a minimal risk.

# PRODUCT USAGE ADVICE

## PRODUCT: SEPTIC & SEWAGE - Microbial Sewage Treatment

### Product Usage and Application Advice

This section provides a general guide that will be highly useful to helping determine whether this product is suitable for your cleaning requirements. In some cases these tables may not be specific enough, in this case please contact a sales representative from B & J Chemicals or a distributor of the Desert Springs Australian range.

### Cleaning Areas Suitability Table

	IDEAL	GREAT	OKAY	NOT SUITABLE
Bathrooms	√			
Carpet	√			
Floors	√			
Furniture			√	
Laundry		√		
Kitchen	√			
Vehicles				√
Windows/ Mirrors				√

### Soiling Suitability Table

	IDEAL	GREAT	OKAY	NOT SUITABLE
Blood, urine, vomit	√			
Dirt & Grime		√		
Disinfection			√	
Dye, colours		√		
Mould & Mildew	√			
Food & Drinks	√			
Oil, Grease, Fat, & Ink	√			
Rust, Iron, Scale			√	

\* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

#### A TIP FROM THE CHEMIST

Living Solutions Septic & Sewage utilises biological cleaning agents rather than harsh chemicals, making it a great natural non-destructive treatment for drains, septic tanks and sewage. It is important to remember that this product is a living organism and it will die when it dries out or when exposed to harsh chemical, particularly bleach and disinfectant.
