HOUSEKEEPING

NEUTRAL CLEANER

The Natural Collection **Concentrated Detergent & General Cleanser**

Cleans Dishes and General Areas of Grime

The Natural Collection is a series of cleaning chemicals that have been developed with specific cleaning performance and environmental goals in mind. This range of cleaners which covers most cleaning applications, has been built from naturally occurring, regenerative ingredients that have been developed from renewable natural resources. These products are readily biodegradable and utilise naturally occurring acids, essential oils, surfactants and solvents including the popular citrus solvent, d-Limonene. All products in the natural collection have been blended on a base of fresh pure rain water and are fragranced, to produce pleasant fresh notes, with essential oils.

NEUTRAL CLEANER combines a range of naturally occurring ingredients to produce a highly concentrated neutral pH sink detergent that is a phosphate free, biodegradable, premium grade hand dish washing detergent. NEUTRAL CLEANER is an heavy duty grade detergent which is suitable for all kitchen wash-up applications and for use in cleaning many other heavily soiled areas. It utilises a blend of biodegradable surfactants to cut grease and grime, to produce great foam levels and clean dishes, floors, walls and benches with ease. NEUTRAL CLEANER utilises a concentrated formula of surfactants rather than caustics and is therefore safe for cleaning sealed floors and other areas where a heavy cleaner is needed but the surface under the soiling must be protected.

DIRECTIONS:

Dish Washing: Add 10ml -15ml NEUTRAL CLEANER to 7 litres of hot water.
Floors and General Cleaning: Dilute NEUTRAL CLEANER 9-12ml per 1 litre of warm water.
Mop or clean area with solution. Allow to dry or squeegee dry for best results.

ACTIVE INGREDIENTS:

- No Scheduled Ingredients.

QUANTITY AVAILABLE and PRODUCT CODE:

- 1 Litre 5831081
- 5 Litre 5831080
- 15 Litre 5831079

CHEMICAL HAZARD STATUS:

- Neutral – Product is neutral or near neutral and presents a minimal risk.

Dye, colours			√	
Mould & Mildew		√		
Food & Drinks	√			
Oil, Grease, Fat, & Ink	√			
Rust, Iron, Scale				√

* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

A TIP FROM THE CHEMIST

Neutral Detergent is a very successful pH controlled cleanser that is not harsh on surfaces. You may wish to utilise this product when you have a big cleaning problem in delicate areas which require a mild soap or neutral cleaner to protect the surface.
