## WINDOW CLEANER

*The Natural Collection* Natural Window Cleaner

### Cleans Glass & Chrome Streak Free

The Natural Collection is a series of cleaning chemicals that have been developed with specific cleaning performance and environmental goals in mind. This range of cleaners which covers most cleaning applications, has been built from naturally occurring, regenerative ingredients that have been developed from renewable natural resources. These products are readily biodegradable and utilise naturally occurring acids, essential oils, surfactants and solvents including the popular citrus solvent, d-Limonene. All products in the natural collection have been blended on a base of fresh pure rain water and are fragranced, to produce pleasant fresh notes, with essential oils.

WINDOW CLEANER is a ready to use commercial streak-free glass cleaner produced from a range of naturally occurring ingredients. Its balanced formulation enables you to clean streak-free; automotive glass, chrome, windows, and polished stainless steel successfully and with a minimum of fuss. WINDOW CLEANER is designed to be used as a spray and wipe window cleaner. Simply spray on and wipe off with a clean cloth and your windows will be spotlessly clean. WINDOW CLEANER dries away to nothing, as you wipe, removing dirt and grime, and leaving no chemical residue behind.

#### DIRECTIONS:

##### Spray and Wipe Application

For cleaning windows, mirrors, chrome and polished stainless steel add WINDOW CLEANER to a spray bottle and spray the WINDOW CLEANER evenly and sparingly, onto the surface to be cleaned. After a brief period of dwell time polish the surface with a clean cloth. For a streak free finish always ensure that the cleaning cloth is clean. Using a microfibre cleaning cloth with WINDOW CLEANER works very well.

#### ACTIVE INGREDIENTS:

- 100g/L Ethyl Alcohol

#### QUANTITY AVAILABLE and PRODUCT CODE:

- |           |          |            |          |
|-----------|----------|------------|----------|
| • 1 Litre | 58311441 | • 15 Litre | 5831144  |
| • 5 Litre | 5831145  | • 25 Litre | 58311445 |

#### CHEMICAL HAZARD STATUS:

- Mildly Acidic – Product pH is slightly acidic and may cause some irritation.

Mould & Mildew		√		
Food & Drinks	√			
Oil, Grease, Fat, & Ink	√			
Rust, Iron, Scale			√	

\* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

#### A TIP FROM THE CHEMIST

A quality window cleaner such as Window Cleaner will give you a streak free clean window everytime you clean as long as you ensure that you are working with a clean cleaning cloth. Dirty cleaning cloths become overladen with soiling and when this occurs they leave behind a streak.
