

# PRODUCT DATA SHEET

## TOILET BLOCKS

### De-Odouriser Blocks - para-Dichlorobenzene

Refreshes Urinals, Toilets & Bathrooms.

#### AREA OF USE

TOILET BLOCKS are urinal de-odouriser blocks which are used for maintaining fresh , odour suppressed conditions within your bathroom. TOILETS BLOCKS represent a safe and economical way to maintain the health of your bathroom. They will also act as a deterrent to insects. TOILETS BLOCKS gradually evaporate in the bathroom releasing a pleasant fragrance. They contain no water soluble ingredients and do not crumble.

#### DIRECTIONS

##### FEATURES:

- Not water soluble
- Fresh and strong fragrance

##### BENEFITS:

- Long lasting
- Leaves toilets and bathrooms fresh smelling

##### DIRECTIONS:

Place a small number of blocks into the urinal so as to have a block every 20 cm in length of urinal.

##### ACTIVE INGREDIENTS:

- 99% min. para-Dichlorobenzene.

Mould & Mildew				√
Food & Drinks				√
Oil, Grease, Fat, & Ink				√
Rust, Iron, Scale				√

\* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

#### A TIP FROM THE CHEMIST

TOILET BLOCKS have been deliberately formulated to be air soluble but not water soluble. This will give you a long lasting fresh smelling bathroom, as the blocks are ideal for wet areas such as urinals. With this in mind, always store TOILET BLOCKS with the lid firmly on to avoid evaporation.
