ZYMEX

Multi-Enzyme Stain & Odour Remover

Removes Biological Stains and Odours

Multi-enzyme powered ZYMEX utilizes the natural odour eating power of enzymes to attack powerful biological odours at their source and defeat them. This synergistic blend of enzymes attacks a wide variety of odour causing substances such as urine, faeces, sweat, fat, milk, food and blood to dissolve them and remove any of these odour causing substances from hard surfaces, clothes, upholstery, curtains and carpets. When applied to the offending area the enzymes get to work and the powerful re-odourants leave a pleasant long lasting fragrance. ZYMEX is also effective in bathrooms, and other damp areas where a build-up of mould and other similar type substances can occur.

FEATURES:

- Synergistic blend of enzymes
- Odour defeaters and reodourants

BENEFITS:

- Powerful multi-faceted soil breakdown, but non-corrosive.
- Fresh fragrance finish

DIRECTIONS:

Use neat or dilute up to 1 part ZYMEX with up to 10 parts water. With an atomiser bottle spray the solution onto the surface to be de-odourised and allow a few minutes for the enzymes to work, if on fabric, rinse. If sprayed onto a hard surface wipe off. It is recommended that this product is not atomised for air-bourne applications, it has been designed for treating surface bound biological odour causing substances.

ACTIVE INGREDIENTS:

- No Scheduled Ingredients

QUANTITY AVAILABLE and PRODUCT CODE:

- 500 ml 40110706
- 5 Litre 4011070

CHEMICAL HAZARD STATUS:

- Alkaline – Product is above pH 9.5. It may cause irritation or burning.

Mould & Mildew	√			
Food & Drinks	√			
Oil, Grease, Fat, & Ink			√	
Rust, Iron, Scale			√	

* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

A TIP FROM THE CHEMIST

Zymex utilises biological cleaning agents rather than harsh chemicals. This makes it a great natural non-destructive cleaning and reodourising product that can be used almost anywhere. When using enzymes always keep them moist because when they dry out they die.
