## HOT & SPICEY

### Non-Caustic Hot Plate Cleaner

#### Cuts through & Removes Burnt-on Food and Fat from Hot Plates

HOT & SPICEY is a hot plate oven and grill cleaner. It is caustic and hydrocarbon free reducing its impact on health and the environment whilst attacking the grease and grime build-up on your hot plate. It is suitable for use anywhere where there is fat, oil, and grease build up in the kitchen. HOT & SPICEY is ideal for cleaning grill plates, barbecue plates, ovens, stove tops, filter hoods and fryers. HOT & SPICEY's caustic free formulation also makes it perfect for use on aluminium or soft alloy metals which are found on some hot plates and kitchen appliances, including extraction hood filters.

#### FEATURES:

- Hard working non-caustic
- High detergency

#### BENEFITS:

- Grease and burnt food cutting power
- Great dirt lifting capacity

#### DIRECTIONS:

##### Hot Plates:

Turn off hot plate but while it is still hot apply a sparing amount of HOT & SPICEY to the plate and spread around using spatula. Allow time to work on soiling but do not allow HOT & SPICEY to cook onto plate. Scrape hot plate clean and rinse with plenty of water.

##### General Cleaner:

When cleaning ovens, filter hoods, fryers and stove tops, dilute HOT & SPICEY 1 part with 40 to parts water. You may need to increase concentration for areas of high build-up. Always test the surface for suitability of HOT & SPICEY on that surface before use.

#### ACTIVE INGREDIENTS:

- 40g/L Alkaline Salts, NOS.

#### QUANTITY AVAILABLE and PRODUCT CODE:

- |            |          |            |          |
|------------|----------|------------|----------|
| • 5 Litre  | 4042051  | • 1 Litre  | 40420501 |
| • 15 Litre | 40420505 | • 25 Litre | 4042050  |

#### CHEMICAL HAZARD STATUS:

- Alkaline – Product is above pH 9.5. It may cause irritation or burning.

# PRODUCT USAGE ADVICE

## PRODUCT: **HOT & SPICEY - Non-Caustic Hot Plate Cleaner**

### Product Usage and Application Advice

This section provides a general guide that will be highly useful to helping determine whether this product is suitable for your cleaning requirements. In some cases these tables may not be specific enough, in this case please contact a sales representative from B & J Chemicals or a distributor of the Desert Springs Australian range.

### Cleaning Areas Suitability Table

	IDEAL	GREAT	OKAY	NOT SUITABLE
Bathrooms		√		
Carpet				√
Floors		√		
Furniture			√	
Laundrying				√
Kitchen	√			
Vehicles			√	
Windows/ Mirrors				√

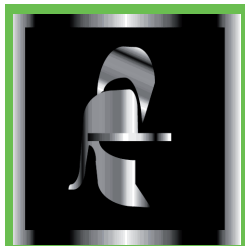

### Soiling Suitability Table

	IDEAL	GREAT	OKAY	NOT SUITABLE
Blood, urine, vomit	√			
Dirt & Grime	√			
Disinfection			√	
Dye, colours			√	
Mould & Mildew		√		
Food & Drinks	√			
Oil, Grease, Fat, & Ink	√			
Rust, Iron, Scale				√

\* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

#### A TIP FROM THE CHEMIST

Hot & Spicy functions best when it is used hot and given a little time to dwell on the soiled surface. If you can achieve this without allowing it to burn onto the hot plate or dry out you will get fantastic results.
