

PRODUCT DATA SHEET

KITCHEN SANITISER

Food Safe Surface Sanitiser

Sanitises Benches, Tables and Chairs

KITCHEN SANITISER is a multi-purpose sanitising product for use in food preparation and dining areas. KITCHEN SANITISER lightly cleans and sanitises without the risk of tainting the food. It can be used to sanitise benches, tables, chairs and any other surface in need of sanitising to prevent contamination and food poisoning. Food handling utensils can also be sanitised with KITCHEN SANITISER.

FEATURES:

- Sanitiser
- Non-residual

BENEFITS:

- Removes unwanted bacteria
- Does not taint food when used correctly

DIRECTIONS:

Spray and Wipe Sanitising: Use neat or dilute KITCHEN SANITISER up to 1 part with 20 parts water. Spray onto benches and wipe. Rinse with potable water afterwards.

Utensil sanitiser: Add 60 mls KITCHEN SANITISER to 4 Litres of potable water. Rinse with potable water afterwards.

ACTIVE INGREDIENTS:

- 30g/L Benzalkonium chloride

Rust, Iron, Scale				√

* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

A TIP FROM THE CHEMIST

Kitchen Sanitiser will effectively sanitise in food preparation and dining areas when allowed to function in ideal operating conditions. It is important to remove excess dirt and grime from surfaces before sanitising. Also to ensure an adequate bug kill Kitchen Sanitiser should have a dwell time of at least five minutes, preferably ten to fifteen minutes.
