

PRODUCT DATA SHEET

RINSE AID

Rinse & Drying Aid

Produces a Perfect Streak-Free Result

RINSE AID rinse aid is an acidic, non-residual high shedding drying aid for use in all types of automatic domestic and commercial dishwashers. RINSE AID is specially formulated for hard water areas where scaling is a problem. Using RINSE AID we leaves your cutlery, crockery and glass ware streak free and shining all residual detergents and alkaline salts will be shed and the water will bead. RINSE AID also greatly increases drying time which means you can have the dishes back onto the table within minutes.

We recommend the use of RINSE AID rinse aid with Centurion Chemicals; DISHWASHER POWDER PLUS. And also with; DISHWASHER DETERGENT and DISHWASHER DUAL.

FEATURES:

- Rinsing and shedding agents
- Drying agents

Rust, Iron, Scale	√			

* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

A TIP FROM THE CHEMIST

Rinse Aid is designed to chemically shed water and chemical from dishes to leave a streak-free result. This process works best when used at the correct rate. If the dosage rate is too high there will be too much chemical and it will begin to leaves streaks or spotting.
