LAUNDRY

BREAKWASH LAUNDRY

Powdered Alkaline Laundry Break

Breaks Grease and Grime in Laundry

BREAKWASH LAUNDRY is a highly active alkaline break detergent for use in commercial laundries to break grease, oils, waxes and general heavy soiling. It is usually used in the first wash or prewash stage of the wash cycle. It can also be used for pre-wash soaking and stain removal. BREAKWASH LAUNDRY will work hard on most types of heavy staining, particularly oils and greases, attacking and releasing them from the fabric. The stain removal is then completed with a zap of oxygen to safely brighten the fabric and remove any final stubborn stains. BREAKWASH LAUNDRY is a heavy duty product that contains some caustic and should be used with caution particularly on delicate fabrics.

FEATURES:

- Hard working alkaline cleansers
- Oxygen safety bleach

BENEFITS:

- Difficult stains are removed
- Fabric is left clean, stain free and bright

DIRECTIONS:

For best results dilute powder before adding garments to the wash. BREAKWASH LAUNDRY is generally used in a pre-wash cycle. It may be used in cold water, particularly of dealing with blood stains. Hot water is recommended for best results.

Commercial Laundries: For light soiling add 60g-90g BREAKWASH LAUNDRY per 10kg of dry laundry to be washed. For heavy soiling increase rate to 150g - 180g of BREAKWASH LAUNDRY per 10kg of dry laundry to be washed.

Domestic Machines: Add 50g - 70g BREAKWASH LAUNDRY per load.

Soaking: For every 10kg of laundry add 100g - 150g BREAKWASH LAUNDRY.

ACTIVE INGREDIENTS:

- 60g/L Sodium hydroxide.

QUANTITY AVAILABLE and PRODUCT CODE:

- | | | | |
|---------|---------|--------|----------|
| • 5 kg | 4061090 | • 2kg | 40610891 |
| • 25 kg | 4061089 | • 10kg | 40610905 |

Rust, Iron, Scale				√

* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

A TIP FROM THE CHEMIST

BREAKWASH LAUNDRY is designed for use in the prewash or first mainwash phase of the laundry wash cycle. Whilst it can be used as a stand alone laundry detergent, it is recommended that you use a laundry detergent in the main wash phase and softener for the final rinse.
