

PRODUCT DATA SHEET

GT - EMULSION

Highly Active Detergent Emulsifier

Actively Breaks Soil in Commercial Laundries

GT-EMULSION is a high quality concentrated laundry emulsion detergent for use in automatic laundry systems, such as the GT-Wash system. It is an highly active laundry detergent that is successful at cleansing most types of soiling from most types of fabric. It is also suitable for use with emulsification of alkali laundry builders. GT-Emulsion is a versatile concentrated formulation that is ideal for broad spectrum emulsion of soiling. This means that it can be used without the requirement of a breakwash in many laundering situations. This enables the reduction of one or more laundering liquids in the automatic laundering system for lighter soiling levels, and the power to attack high levels of soiling, when required, with great success.

FEATURES:

- Highly active heavy duty cleaning agents
- Concentrated detergent soil pH balanced breakers

BENEFITS:

- Launders heavily soiled garments clean
- Lifts and releases dirt and grime without excessive fabric wear

DIRECTIONS

General Laundering Domestic:

For general laundering add to the machine 25mls - 35mls of GT-EMULSION per load.

Commercial Laundering:

Use 50mls - 65mls of GT-EMULSION per 10kg of laundry in commercial machines. This rate may vary depending upon laundry chemical formulation requirements. GT-EMULSION should be used in conjunction with the other chemicals in the GT-Wash laundering system.

Installation:

This product forms an integral part of the GT-Wash automatic laundry system and should be installed and calibrated by a service representative of B & J Chemicals.

ACTIVE INGREDIENTS:

- 40g/L 2-Butoxyethanol

QUANTITY AVAILABLE and PRODUCT CODE:

- | | | | |
|-------|---------|--------|----------|
| • 15L | 4062011 | • 5L | 40620105 |
| • 25L | 4062010 | • 200L | 40620115 |

CHEMICAL HAZARD STATUS:

- Alkaline – Product is above pH 9.5. It may cause irritation or burning.
