

PRODUCT DATA SHEET

GT - GREASE OUT C

Citrus Emulsified Solvent Detergent

Dissolves Grease and Oil Rapidly when Laundering

GT-GREASE OUT C is an active emulsified citrus solvent detergent. It will remove heavily entrenched grease, fat and oil stains from clothing and general laundry. Unlike traditional solvent detergents GT-GREASE OUT C is a pleasantly fragranced formulation. GT-GREASE OUT C penetrates deep into the stain releasing it from the fabric. It is fully emulsified allowing the active degreasing power of the citrus hydrocarbons to be totally soluble in water. GT-GREASE OUT C works effectively as a soaking solution, pre-wash spray or as a solvent breakwash laundry detergent.

DIRECTIONS

Prewash Spray:

Ensuring surface is dry, spray DISPERSOL onto stained area and allow a minute or two to work. Agitate and rinse with warm water. Do not allow DISPERSOL to dry on fabric.

Soaking Solution:

For light to moderate stain removal, add 1 part DISPERSOL to 60 parts warm, but not hot water. Soak item in solution, and agitate. Monitor stain, and leave to soak for a periods of at least an hour of stain is proving stubborn. After soaking rinse in potable water. Concentration may be increased to 1 part DISPERSOL to 30 parts water.

Laundry Detergent or Breakwash:

DISPERSOL is an excellent emulsion detergent to use on grease oil and fat stains in a prewash cycle or breakwash cycle. Simply add 90mls DISPERSOL per 10kg of laundry. Increase if soiling is heavy.

Installation:

This product can form an integral part of the GT-Wash automatic laundry system. If such a system is your requirement it should be installed and calibrated by a service representative of B & J Chemicals.

ACTIVE INGREDIENTS:

- 136g/L d-Limonene

QUANTITY AVAILABLE and PRODUCT CODE:

- 15L 4062013
- 25L 4062014

CHEMICAL HAZARD STATUS:

- Solvent – Product will de-fat, and degrease. Irritation may occur.
