

# PRODUCT DATA SHEET

## LAUNDRY STARCH

### Powdered Laundry Starch

**Makes Fabrics Rigid and Easier to Iron**

A commercial grade wheaten starch specially produced to be used in most laundry starching applications. The application of LAUNDRY STARCH will greatly improve the rigidity of the fabric and also make ironing a great deal easier.

#### FEATURES:

- Fabric starch proteins

#### BENEFITS:

- Makes fabric rigid and easier to iron

#### DIRECTIONS:

##### Manual Application:

Dilute the required amount of LAUNDRY STARCH into warm water. Always use warm to hot water. Producing a thin paste of even consistency. Add the pastey substance to the the last rinse cycle of the laundry wash cycle. Remove Linen from the machine and dry on a warm, not hot, heat setting, or alternatively air dry. When fabric is almost dry but still a little damp iron the linen to set the fabric to a rigid state.

#### ACTIVE INGREDIENTS:

- No Scheduled Ingredients

#### QUANTITY AVAILABLE and PRODUCT CODE:

- 5 kg 4061021
- 25kg 4061020

#### CHEMICAL HAZARD STATUS:

- Neutral – Product is neutral pH or near neutral and present very little risk.

Dye, colours				√
Mould & Mildew				√
Food & Drinks				√
Oil, Grease, Fat, & Ink				√
Rust, Iron, Scale				√

\* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

#### A TIP FROM THE CHEMIST

The key to successful starching is to give the laundry starch 10 minutes to activate in the water with the fabric. Once the fabric is treated the fabric should be ironed before well before it dries.
