

PRODUCT DATA SHEET

SODIUM PERCARBONATE

Colourfast Oxygen Bleach

Safely Brightens Coloureds & Whites

A safety oxidising compound SODIUM PERCARBONATE enables bleaching of stains, mild sanitising, and the brightening of coloureds. The use of SODIUM PERCARBONATE will remove a variety of stains, including stain "halos" from almost any fabric and carpet. Its active oxygen gets into the stain and restores the fabric to its original state. It is suitable for use on coloured fabric as it will not effect the dyes.

DIRECTIONS:

Manual Application:

Dilute the required amount of SODIUM PERCARBONATE into water. Always use warm to hot water.

General stains: Add 15-25 g of SODIUM PERCARBONATE to 1 Litre pf water and mix well.

Heavy Stains: Add 100g of SODIUM PERCARBONATE to 1 litre of water and mix well.

Caution should be used on delicate fabrics.

ACTIVE INGREDIENTS:

- 1000g/kg Sodium carbonate peroxyhydrate.

QUANTITY AVAILABLE and PRODUCT CODE:

- 5 kg 4061108
- 25kg 4061107

CHEMICAL HAZARD STATUS:

- Alkaline – Product is above pH 9.5. It may cause irritation or burning.

Mould & Mildew		√		
Food & Drinks			√	
Oil, Grease, Fat, & Ink				√
Rust, Iron, Scale				√

* Caution: Care should always be taken when applying a product to a cleaning situation for the first time.

A TIP FROM THE CHEMIST

SODIUM PERCARBONATE is the bleach you use when you don't want the harmful effects caused by normal chlorine bleaching. It is relatively pH neutral, safe on colours and gentle on fabric.
